

WOOD

ROLL-UP DOORS

EXCLUSIVELY CRAFTED BY
LIVING DOORS, INC.

WOOD ROLL-UP DOORS

offer the **BEAUTY** and **RICHNESS** of wood with
the **PRACTICALITY** of a roll-up.

EXPERIENCE

Living Doors, Inc. has been manufacturing rolling wood doors for over two decades. Every product we put out is backed by years of experience, development and continuous testing.

Living Doors, Inc. maintains strict standards to ensure optimum performance and continual customer satisfaction through service and a reputation for consistent quality.

QUALITY

Living Doors is generally accepted as providing the finest quality available in the industry. All materials and workmanship are selected so as to provide the best combination of durability and ease of operation. Our success is directly related to the quality of the doors we produce.

CUSTOM DESIGN

All Living Doors are custom engineered to meet the specific requirements of the user. As door specialists, the engineers at Living Doors assist architects, contractors, consumers and other engineers in every conceivable door problem. Living Doors have been successfully utilized in factories, warehouses, commercial buildings, shopping centers, schools, banks, hospital and other structures.

Size Limitations: Living Doors may be built to sizes up to 15'9" in width in standard woods. For select woods, please consult the factory.

WOOD COUNTER SHUTTERS

- Living Doors WOOD COUNTER SHUTTERS offer the richness and beauty of real wood in conjunction with the space-saving features of a conventional rolling shutter.

- STANDARD wood used is RED OAK. Shutters are also available in BIRCH, WHITE OAK, MAHOGANY, PINE, CHERRY and other selected hardwoods.

- Product Applications for Shutters include opening widths up to 15'9" and 8'0" in height. Sizes larger than indicated are available - consult factory.

Living Doors Wood Shutters should be specified for pass-through openings, reception windows or any other opening where security and the aesthetic appeal of real wood are needed.

- Locking is provided by means of a thumb-turn dead-bolt. Optional cylinder locks can be furnished.

- Methods of Operation include standard manual push-up for smaller-sized units. Optional Crank and Motor operation are available.
